

TTR Logo Generator

Logo Generator

BROADCAST LOGO GENERATOR - BUGTRAP

The TTR Bug Trap is a full broadcast specification 10 bit logo store. The unit is capable of storing up to 6 logos, ideal for on air Bugs or also known as 'spoilers'. Storing logos is easy, simply grab the key, then grab the fill, and assign the logo to one of the 6 positions. All logos are stored permanently in EEPROM. The unit is housed in a small compact mains powered unit that allows up to 2 units to be mounted in 1U.

Features

- Full broadcast 10bit logo store
- Fully position-able across the screen
- Up to 6 different logos can be stored
- Small compact portable design
- Two units can be mounted in 1U
